EDUCATION

BACHELOR OF INFORMATION TECHNOLOGY

St . Xavier's Catholic College of Engineering

70% 2023 - Present

Amala Matriculation Higher Secondary School

78% 2022 - 2023

TECHINICAL SKILLS

- Web Development : HTML , CSS , Javascript
- Programming : C, JAVA, Python
- Databases : MySQL Tools and
- Others : Git and Github,

ADDITIONAL INFORMATION

- STRENGTHS : Time Management
- LANGUAGES KNOWN : Tamil, English, Malayalam (Intermediate).

OBJECTIVE

I am a passionate and enthusiastic IT student with hands-on experience in web development (HTML, CSS, JavaScript) and programming (C, Java), I aim to start my career as a front-end or full-stack developer. My goal is to apply my skills in databases ,WordPress customization, and collaborative tools like GitHub to build user-friendly, responsive, and impactful digital solutions while continuously learning and growing with the organization.

INTERNSHIP

june 2025
KELTRON, Trivandrum

Internship in Internet of Things (IoT)

- Gained hands-on experience in IoT technologies, sensor integration, and embedded programming using ESP32 and Arduino platforms.
- Independently worked on a mini-project "Smart Soil Analyzer & Crop Advisor", applying IoT for smart agriculture solutions.

CERTIFICATES

UI/UX for beginners (Simplilearn)

Introduction to computer network (Simplilearn)

PROJECTS

Smart Soil Analyzer and Crop Advisor (IOT)

- Built an ESP32-based soil monitoring system using DHT11, moisture, and pH sensors to analyze soil health and provide crop recommendations for improved agricultural decision-making

Movie Ticket Booking Management System(Mini project)

- Developed a Java GUI application for movie listings, seat selection, and ticket booking with Admin & Customer modules, secure login, and real-time booking management.
